## WORK EXPERIENCE

### Software Developer

#### Intellection Software & Technologies Pvt. Ltd

05/2021 - Present

Pune

##### Responsibilities/Tasks

- Worked on the 7 projects to complete requirements of client before deadlines.
- Developed reusable components and libraries for future use and for lesser dependency on external libraries.
- Managed and optimized the code for the frontend as well as for mobile development on Android and iOS platforms to enhance performance.
- The technology used like ReactJS, React Native, Next JS, JavaScript, HTML, CSS, etc., followed test driven environment for development.
- Worked with team and led the team for completion of projects.

## PERSONAL PROJECTS

### EV Smart (02/2021 - 03/2021)

- Currently we are seeing that there high surge in purchasing of electric cars and bikes. Government is still developing good infrastructure for making availability of enough charging stations. EV Smart is small initiative that will help people to add their own charging station as well as they can look up for other charging station on the way.

### Blog Posts (02/2022 - 02/2022)

- It is a web app for posting blogs and users will be able to see the other's posts as well.
- This web app is built using React js, Node js, Express js, MongoDB. Also JWT based authentication is implemented.

## EDUCATION
